County of Ocean, State of New Jersey**

**Public Notice**

Please be advised that Plumsted Township and the Plumsted Municipal Utilities Authority (PMUA) have applied to the State's Clean Water State Revolving Fund administered by the New Jersey Environmental Infrastructure Financing Program (NJEIFP) for a low interest loan to construct a collection and disposal system to provide sanitary sewer service to the downtown New Egypt area of Plumsted Township, which currently has no public sewer system. The proposed improvements include construction of approximately 37,210 lineal feet (LF) of 8 to 12-inch diameter PVC pipe and over 100 sanitary sewer manholes. Construction also includes a new submersible sanitary sewage pump station and 7,700 LF of 10-inch diameter force main. Lastly, the proposed improvements include construction of a multi-train membrane bioreactor treatment facility that will discharge treated effluent to the Crosswicks Creek. The engineer's estimate for the proposed construction is approximately \$19,550,000. The Township and PMUA are requesting funding, which includes bonding, legal, contingencies and other costs, for a total Not-To-Exceed amount of approximately \$22,720,000 for the proposed infrastructure improvements. As part of the funding process, the PMUA must conduct a public hearing pursuant to NJAC 7:22-10.10 to solicit input from the affected public. The PMUA will conduct the public hearing on Tuesday, May 16, 2017 from 7:30 P.M. until 9:00 P.M. in Plumsted Township's Municipal Building located at 121 Evergreen Road, New Egypt, NJ 08533. Copies of the planning document, construction drawings and cost estimates may be viewed in the Office of the PMUA Executive Director, Peter Ylvisaker, located in the Township's Municipal Building at 121 Evergreen Road, New Egypt, NJ 08533.
